On September 27, 2005 the Massachusetts Department of Environmental Protection, (MassDEP) issued a five-year license to Cyn Oil Corporation dba Cyn Environmental Services (CYN). In August 2010, CYN submitted a license renewal application to allow the company to continue hazardous waste facility operations at its site in Stoughton, MA.

Following technical review of the application, MassDEP prepared a draft license. Public Notice of the draft license was given in The Patriot Ledger on June 29, 2012.

Copies of the draft license were available for public review at the Stoughton Board of Health, Stoughton Public Library, MassDEP's Boston Office and its Southeast Regional Office in Lakeville, and the USEPA New England - Regional Office in Boston.

The public comment period was from June 29, 2012 through August 13, 2012. During the 45-day comment period, MassDEP received written comments specific to the terms and conditions of the draft license. MassDEP's response to comments are summarized in the document titled "Response to Comments to Cyn Oil Corporation dba Cyn Environmental Services Draft License" attached to this notice. This document also describes the revisions made to the draft license as a result of the comments received and lists some minor corrections made to the draft license.

MassDEP grants Cyn Oil Corporation dba Cyn Environmental Services a final hazardous waste facility license.

Any person aggrieved by this decision may request an adjudicatory hearing before the MassDEP; please refer to the "Appeal Rights and Time Limits" procedures attached to this notice.
